

Delivering information in the toughest environments.

In medical and pharmaceutical settings, it's critical that labels hold their integrity. 3M™ Durable Label Materials combine performance-based adhesives, topcoats, liners and more to help meet the most demanding label applications including:

- Exposure to harsh chemicals and solvents
- Tight diameter labeling
- Hard-to-stick-to LSE materials
- Harsh conditions of sterilization
- Extreme cryogenic temperatures

Solutions for tissue diagnostics and screening.

These labels are resistant to the harsh chemicals and solvents used in tissue diagnostic testing, including cancer screening.
